

**Caution!**

Due to safety reasons pay attention to the course of existing, also non-visible cables, wires and other components which are situated in the installation area!

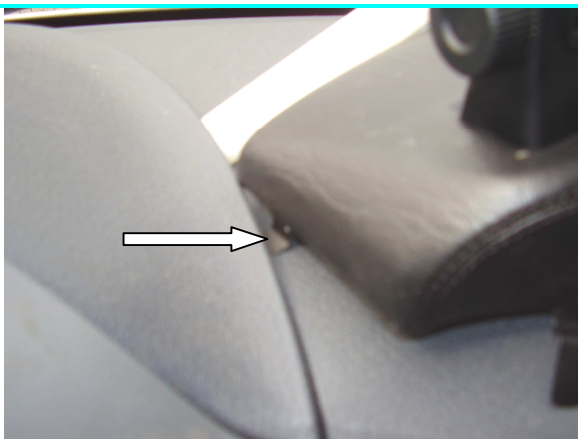

The console and the components are to be installed in such a way that for the passengers no dangers of injury (i.e. by sharp edges) develop.

**Illustration 1:**

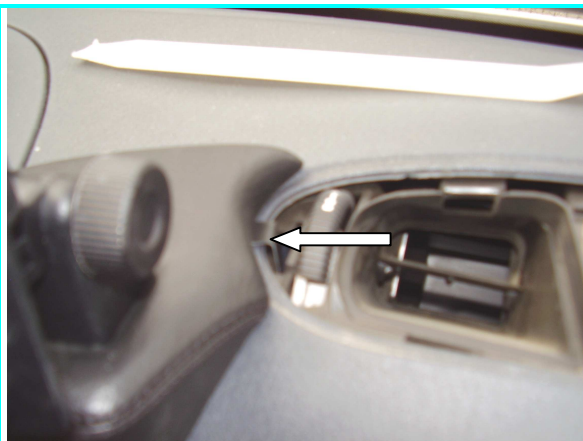

- Remove the cover of the air outlet on the dashboard.

**Illustration 2:**

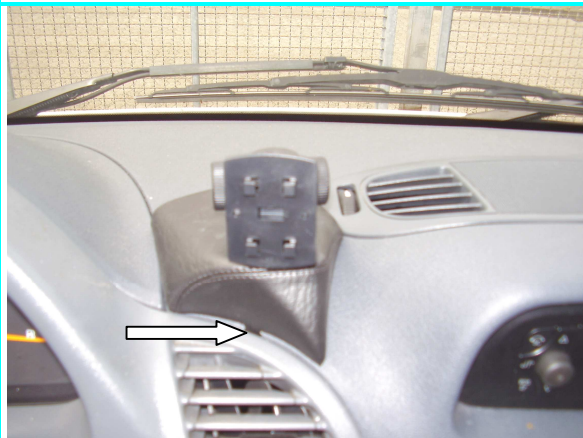

- Slightly lift the frame of the speedometer.

**Illustration 3:**

- Position the console as shown.
- Push the left sheet metal of the console (see arrow) under the frame of the speedometer.

**Illustration 4:**

- Bend the right sheet metal of the console (see arrow) around the lining of the previously removed air outlet.

**Illustration 5:**

- Push the front sheet metal of the console (see arrow) under the lining.
- Replace all removed parts.
