INSTALLATION MANUAL

All installation work must be performed by a qualified professional installer only.
The manufacturer / dealer is not liable for any kind of incidental or indirect damages.

1 After the dashboard disassembly, take the two USB connectors supplied that must be connected to these two radio connectors.

2 Connect the two USB connectors. **Pay attention to the indications printed on the label.**

The green one must be connected to the green radio connector.

The grey one must be fitted to the other radio connector, the grey one.

3 Connect the two USB connectors to the USB connectors of the head unit.

USB ports are now connected.
